WORK EXPERIENCE

Software Developer Trainee, RecursiveZero Private Limited | Live Demo | GitHub April 2026 – June 2026
- Worked on abcdkbd.com, a children's educational web platform (Astro, TypeScript, CSS), building product features from scratch.
- Redesigned UI/UX across 10+ existing pages and built 2 new pages, along with 1 new interactive educational game.
- Fixed a critical bug where the game failed to open on mobile; rebuilt its layout to be fully responsive across mobile, tablet, and desktop.
- Debugged and resolved 10+ GitHub-reported issues, using AI coding tools (Claude, Copilot) to speed up investigation and testing.

Web Development Intern, Sysslan IT Solutions | Live Demo | GitHub February 2026 – March 2026
- Built AmanFashion, a responsive e-commerce static website (HTML, CSS, JavaScript) with product listings and navigation.
- Ensured cross-device responsiveness and consistent styling throughout the website.

Front-End Developer Intern, Engineer Core – Effervescence, IIIT Allahabad (Remote) July 2023 – August 2023
- Built responsive web pages for a Repair & Maintenance Service website using Bootstrap and CSS, practicing Git-based collaboration.

PROJECTS

FilmyPass Movie Ticket Booking Platform (BookMyShow-style) | Live Demo | GitHub
Tech: Java, Spring Boot, MySQL, React.js,Javascript
- Built REST APIs in Spring Boot for user profiles, movie/theatre/show listing, seat selection, ticket booking, and cancellation.
- Implemented transactional seat reservation with automatic seat release on booking cancellation.
- Designed the MySQL schema with Spring Data JPA/Hibernate, using unique constraints and validated request DTOs.
- Developed a responsive React frontend for browsing movies, selecting seats, and confirming bookings.

FreshGradPrep — Open Source Contribution | Live Demo | GitHub March 2026
Tech: React.js, TypeScript, Material UI
- Resolved 5 GitHub issues on an open-source platform, with all pull requests reviewed and merged by maintainers.
- Built multiple UI sections following component-based architecture and responsive design principles, using a professional workflow (issue tracking, feature branching, code reviews).

Online Resume Builder Web Application | Live Demo January 2024 – May 2024
Tech: JavaScript, HTML, CSS | Deployment: Vercel
- Built a single-page resume builder using vanilla JavaScript with DOM manipulation, form handling, and local storage.
- Applied responsive, mobile-first design with reusable UI components for freshers and professionals.

EXTRACURRICULAR ACTIVITIES

- Joint Secretary, University Music Club; Volunteer at university fests and 3× South Zone Musical Competition participant.
